Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative argued that Liang does not teach "automatically performing a remote installation of a security software program. The Examiner pointed that broadly providing an automatic means to replace a manual activity which accomplished the same result is not sufficient to distinguish over the prior art. Applicant's representative further that Boyterin in view of Liang lacks a motivation to combine and proposed to present those arguments in reponse to the office action .
